

FOR ARTISTS

## *Your work shouldn't stay in your studio.*

Visual or sonic. milsiz puts your work in front of people who walk into the room — a café you'd hang in, a bar you'd play at. Every collab carries its own written terms.

A COLLAB AWAY

# Where will you be seen and heard?

No gallery. No label. Walls and speakers, listening.  
**0% commission on tips.** On a sale, you keep your full listing price. The buyer covers a flat 15% platform fee at checkout. Venue commission, if any, is what you and the venue agreed.

WHAT YOU CAN DO

# Walls and speakers.

Three openings, all unlocked by one collaboration.

01 *"Hang your work at venues."*

Find a venue on the map, propose terms (commission, duration), get accepted — your piece goes onto their wall and their public listing. A bar in Beyoğlu. A café in Kadıköy. Same dashboard.

02 *"Get your music on venue radios."*

Submit tracks to a venue's library. Once the music-collab is active, your music plays through their station and gets attributed on every in-room buy. Wall and speakers, one profile.

03 *"One agreement, one split, no chasing."*

Every collab writes its terms into an agreement — commission, duration, IP, termination. When a sale clears, the split runs automatically. milsiz records what you and the venue agreed; it doesn't dictate the rate.

HOW YOU GET PAID

# One agreement, one split, no chasing.
