

FOR VENUES

Your room is already a programme.

Cafés, bars, record stores, hair salons, lobbies — anywhere people linger. milsiz turns that lingering into a stream of exhibitions, music, commissions, and sales, with one agreement per collab and a payout split that just works.

A NEW REVENUE STREAM

Make your room one.

Run shows on the wall. Run a station on the speakers.
Curate playlists. Commission new work.

\$20 / month, cancel anytime. Commission on every sale at your venue — negotiated with the artist per collab. milsiz doesn't dictate the rate.

WHAT YOU CAN SUMMON

A new world on your wall.

Four surfaces, one agreement layer.

01 *"A new world on your wall."*

Open submissions or invite artists directly. Approve the piece, the duration, the commission. The wall fills itself — one exhibition agreement per show.

02 *"A sound the venue calls its own."*

A station that plays from your library of music-collabbed tracks. Listeners hear it in the room and on app.milsiz.art with your name on the cart. Playlists and library pages pull more listeners in.

03 *"Every collab carries its written terms."*

Display, music library, music collab, commission, co-creator — five baseline templates with a PDF, an audit trail, termination terms. milsiz records what you and the artist agree to; it doesn't decide it.

A CONSOLE FOR THE ROOM

Walls, speakers, programming as channels.
